JAKO TEAMSPORT

2024

FOR EVERY TEAM IN EVERY LEAGUE

From the exciting atmosphere in the stadium to the thrilling competition in the gymnastics hall – professional clubs and associations all over the world rely on JAKO. And we are proud to support these teams and athletes, who not only score goals or win medals, but also win hearts and strengthen communities.

Together we live the team spirit and are ambassadors for the sport:

ALL AROUND THE WORLD

We equip teams in more than 50 countries with JAKO match and training wear. All over the world, we are united by the passion for sport, no matter whether it‘s soccer, handball, tennis or any other.

Together with our partners, we support our clubs to achieve their goals and dreams.

WE ARE TEAM

CIRCULAR ECONOMY

The world‘s resources are becoming constantly rarer and the environmental impact is becoming ever clearer. We want to make a contribution to making our textiles recyclable and give them another life.

In 2022, we launched a recycling project. Together with our partner clubs in Germany and Switzerland, we collected discarded sportswear. **The result you can see in the image on the left: A jersey made from completely recycled textiles.**

Would you like to find out how a new jersey is made from the collected textiles or get to know more of our projects?

SUPPLY CHAINS

It is important for us to know where, by whom and how our articles are produced. Therefore, suppliers are carefully selected and regularly visited. We concentrate on a few main suppliers with whom we have a long-term and very cooperative relationship. In many personal discussions, we work out concepts and solutions with our long-term partners on the responsible social and ecological issues in order to manufacture our products in a fairer and more ecologically sustainable way.

SUSTAIN ABILITY

IS TEAMWORK

OUR TEAM FOR A BETTER WORLD

Sustainability for us is the responsible use of resources and long-term oriented corporate management and also the fair treatment of people. On our “Our team for a better world” website we would like to tell you more about our goals and projects on the topic of sustainability.

FUNCTION

On the sports field, in the gym or on long working days: the functional properties of our textiles help you look good in every situation. Pay attention to the corresponding icons KEEP DRY and STOP WATER on the JAKO products.

TEXTILE CARE

Textile friendly washing and drying is an essential part of textile care. In order to enjoy your textiles for a long time, you should pay attention to the care symbols on the label in the clothing. With tips and tricks from clevercare.info you will learn sustainable textile care.

CUSTOMIZATION

Club badge, sponsor logos or player numbers: with a customization you can make your equipment unmistakeable. That is why numerous JAKO team sport articles offer large free space for individual customization. Talk to your local sports retailer.

NOTE: When finishing with screen printing, we recommend the use of a migration blocker to achieve the best possible result.

FAIR LABEL

We have made a conscious decision to award outstanding products with our own label. The reason: there is a large number of different labels and it is difficult to keep an overview. We identify sustainable products with the JAKO FAIR label. It shows which products meet particularly high standards in terms of sustainability. It identifies products made from organic cotton or recycled raw materials. For this purpose we apply strict criteria regarding the choice of materials.

FAIR

100 % of the materials used are made from recycled raw materials or organic cotton.

FAIR

At least 50 % of the materials used are made from recycled raw materials or organic cotton.

KEEP DRY

KEEP DRY

Microfine fibres transport moisture directly to the surface of the fabric. Thus, the material dries very quickly, protects against cooling and keeps you a comfortable body feeling during sports.

STOP WATER

STOP WATER

Waterproof functional materials and welded main seams also provide reliable protection against moisture. The high water vapour permeability guarantees a comfortable body climate.
